

## CAMBRIDGE INDEPENDENT ARCHAEOLOGY

Important note regarding trench numbers in reports. Following professional advice, from 2014 all trenches related to the Roman building were renumbered in sequence from Tr1 onwards and all subsequent excavation trenches followed suit. Reports prior to that date will have their original number.

While in the short term it may be confusing as the earlier reports still have their original numbers, in the long term when all reports are brought together into a single paper, it will remove possible ambiguities (e.g. there are Tr1's in 2012 and 2013). There is a similar issue with contexts, but that does not generally affect the reports as only in rare cases does a subsequent report reference an earlier context. The earlier 'Temple' trench numbers are also currently being revised but not yet ready to detail.

All trenches post 2015 are not changed
